Educational Technologist/E-Learning Expert

Asia Pacific International College (APIC) is an accredited innovative Australian postgraduate institution. APIC's courses are delivered substantially online applying its unique project-based clinical learning model (see www.apicollege.com for more information). APIC is set to experience substantial growth in the near future. APIC currently offers the following accredited university level courses:

- MBA in Project and Program Management, **MBA (PPM)**
- Master of Business and Project Management, **MBPM**
- Graduate Diploma in Project Management, **GradDipPM**
- Graduate Certificate in Project Management, **GradCertPM**

APIC also offers the following industry-based professional development courses:

- Executive Diploma in Project and Program Management, **ExDipPM**
- Certificate of Completion (Per subject - 6 Credit points), **CPD**
- Intensive Knowledge Workshop (each 4 days long)
- Professional Development Planning Workshop, **PDP Workshop**

The key benefits of APIC courses for individual professionals are:

- Systemic goal-based learning and development plans
- Individual learning and development aligned with employer goals and strategies
- Online, flexible, customised course load
- Blended delivery using intensive workshops and project-based online learning at workplace
- State-of-the-art subject matter including the latest scientific developments
- Peer group support, professional knowledge/expertise exchange and experiential learning

We have created a new position for an Educational Technologist/E-Learning Expert who is organised, self motivated, result orientated, professional, confident and with the ability to communicate (written and verbal) at all levels. To be successful you will need to manage the process and resources, assume responsibility for outcomes, deliver mission critical service, juggle multiple initiatives and ensure customer satisfaction. The position requires the following core skills:

- Ability to understand, apply, manage and promote APIC's online learning systems and tools
- Ability to propose and implement web-based tools and techniques for enhancement of teaching and learning particularly to support flexible project-based team learning and assessment

Knowledge of flexible adult learning and professional development theories will be an advantage. The successful applicant is expected to hold a postgraduate degree in educational technology or a related field with a minimum 5 years of relevant experience. Applications should submit their full resume, a statement addressing the above performance requirements and the name and particulars of 3 referees including fax and email details. We offer attractive remuneration (commensurate with your

experience). This is an opportunity for a professional educational technologist to accept challenges, excel and achieve a high level of job satisfaction.

Asia Pacific International College is an equal opportunity employer. APIC reserves the right not to proceed with the appointment on financial or other grounds.
